Soviet Military Quarters and Troops in the Target Area

25X1X

25X1A

Town	Installation	Location	Occupation of quarters	Remarks
KOVUL (61°10'N/ 24°40'E)	Barracks (about 820 x 985 feet) 3 4-story buildings (230 x 100 feet each) 2 sheds (885 x 65 feet each)	2 miles north of the town, east of the KOVUL-BELIST highway (52°05'N/25°55'E)	Occupation estimated at 400 to 600 troops; 1 colonel and 2 captains were seen. Nine 3-wheeled trucks loaded with iron girders of 25 to 30 foot length, about 6 foot width, and 3 foot height were parked in the open within the barracks area. More motor vehicles were seen in the sheds. According to yellow-leaf a bridge con- struction unit was stationed there.	believed by another unit equipped with similar motor vehicles in early June. The soldiers seemed to be older.
	1. Barracks (2 three- story yellow brick buildings, partly de- molished).	Exact location is not known (allegedly next to the "electrical punching machine").	Engineer unit of unknown strength	
	2. Barracks (1 brick- building, 2 stories, about 100 feet long, damaged)	2.5 miles south of KOVUL.	Coarse-drawn unit of an esti- mated strength of 1 battalion; recruits were being trained with mortars of 80 and 120 mm caliber.	The barracks were designat- ed as "southern barracks".
BOVNO (50°35'N/ 26°10'E)	Barracks (10 to 12 buildings, garages)	At the western town border of BOVNO, north of the road leading from BOVNO to DUBNA (50°20'N/25°40'E)	1 Ltz Arty regt 1 tank regt, allegedly predomi- nantly equipped with "45" tanks. The average age of the troops was 20 years. Combined practices were observed.

ROVNO	1. Large barracks block (4,900 x 5,600 feet, about 20 brick buildings, most of them 4-story buildings)	At the western town border of ROVNO, on either side of the road leading to LUTSK (50°45'N/25°15'E).	a. Tank units were stationed south of the road; "T-34" tanks, assault guns and armored reconnaissance vehicles, besides several hundred trucks and passenger cars were observed parked in the open and in sheds within the barracks area. b. Motorized infantry units were stationed north of the road; trucks occupied by infantrymen were repeatedly observed. 1 club house and officers' quartering buildings were located towards the town.	
	2. barracks (5 3-story buildings, 4 bunkers)	Southern border of ROVNO, east of the K. line leading at 570/600CV (8 miles south of ROVNO)	Unidentified troop unit a motorized radio station was seen on the barracks yard. 2 officers' quartering buildings are located between the barracks and the K. line.	Inferred that these troops belong to the same unit.
	3.a. Barracks (2-story brick buildings)	Town center, south of the "Red Square" and Stalin Street	Unit in battalion strength, branch of service unknown.	both barracks were occupied by troops of the "Konny-Polk".
	3.b. Military quarters (1 brick building)	In the eastern town sector, near the MVD headquarters	Occupation unknown.

Town	Installation	Location	Pertinent Information	Remarks
KOVEL (51°10'N/ 24°40'E)	1. Ammunition dump (Total extension about 3,280x 4,920 feet, three rows of four sheds each, five rows of five sheds each. The floor of the sheds was about 3 feet underground; there were embankments being made between the sheds. Spur track with German and Russian gauge. Triple wire fence, twenty watch-towers.	Northwest of the town in the area of the marshaling yard. (see Annex 1, No.1).	Dump sector No. VI (German ammunition): 37-mm antiaircraft and anti-tank ammunition. 50-mm antitank ammunition. 88-mm antiaircraft ammunition (stored in 4 or 5 sheds) 100 and 150-mm artillery ammunition. Small amounts of infantry ammunition. Czech 300-mm artillery ammunition. Dump sector No. VII (Soviet ammunition): Ammunition of different calibers of 50 to 150-mm. All sheds were filled to capacity. Empty sheds were immediately refilled.	The dump sectors VI and VII were being combined as ammunition dumps. The dump sectors I through V were called trans-loading point Marshirka.
	2. Engineer depot (more than 50 wooden sheds in 2 rows, spur track with German and Russian gauge. Total extension about 3,300 x 3,300 feet).	Northwest of the town in the area of the marshaling station (see Annex 1, No.2).	Engineer equipment, signal equipment, motor vehicle engines, horse drawn vehicles, RR construction material was stored in the sheds. Motor boats with outboard motors were loaded on trucks, numerous trucks, including trucks with trailers which were equipped with construction parts of 62 to 32 foot length and RR construction material was stored between the sheds.	All the RR construction material is of German origin. 50 percent of all other material are German. About 100 RR cars loaded with rails were shipped towards BREST in May 1948.
	Supply depot (3 rows of sheds with a total of more than 100 sheds, 165x 100 feet each, concrete floors, three spur tracks).	Northwest of the town in the area of the marshaling yard (see Annex 1, No.3)	a. Food stuffs were stored in about 20 sheds, distribution from 5 sheds. b. Engines and spare parts for tanks and motor vehicles were stored in numerous sheds

25X1A

25X1X

Town	Installation	Location	Pertinent Information	Remarks
ROVNO (50°35'N/ 26°10'E)	2. Fuel dump (tanks were dug in and well camouflaged, spur track).	About 1.8 miles northwest of KOVEL, north of the RR line leading to LYUBOML (51°10'N/ 24°00'E) (see Annex 1, No.5).	About 60 containers with a capacity of about 2,640 gallons each.	
ORTSEV (50°44'N/ 26°05'E)	Engineer depot (3-stone buildings, 2 large wooden buildings, 1 lean-to spur track)	Near the RR station	The following equipment was stored there: Pontoon, pneumatic boats, tools, etc. The depot was currently stocked. No distribution of equipment except one train loaded with pontoons.	[redacted] confirms the engineer depot immediately northwest of the RR station in June 1947. Weapons, ammunition and equipment was stored in sheds.
	Large ordnance depot, located in a woods (one 4-story concrete building, 660x65 feet)	1.2 to 1.8 miles northwest of ORTSEV, close to ORTSEVSKIE TAKLADY.	Guns were seen in one of the buildings. Most of the buildings were sealed and, according to a Soviet soldier, guns were stored there.	The construction work began in 1947, further construction was planned. [redacted] large underground ammunition dump was planned.
	30 barracks (490x65x25 feet each) brick floors, each had 4 big folding doors.		Immediately after these buildings were finished, guns which arrived by RR were stored there.	(Dumps of this kind allegedly exist already in the area of LVOV and STANISLAV)
	Saw mill, Spur track, (for details see Annex 2).

Town	Installation	Location	Pertinent Information	Remarks
KAMENTS- PODOLSK (48°40'N/ 26°35'E)	Artillery depot (size about 6,560x6,560 feet, on either side of the road leading to about 195x50 feet. Several brick buildings, 55°E) (see Annex 3, I) spur track from eastern direction.)	Northern town border road leading to PROSKUROV (48°20'N/26° 55°E) (see Annex 3, I)	Very large numbers of different calibers, estimated at several thousand. The following guns were recognized: many horse-drawn field guns of 76.2-mm, anti-aircraft guns of 20 and 37-mm caliber (German origin), antitank guns of 76.2 mm caliber (Soviet origin), heavy and very heavy guns, partially in two loads. Antitank guns of 80 to 90- mm caliber with twin-tires were being delivered in large quantities. After completion of the sheds the guns were gradually stored there.	The gun park located at the northern town border of KAMENTS- PODOLSK, on either side of a north-bound road, was confirmed. Great quantities of guns and mortars were seen. The western sector of the installations was still under construction (see Annex 3, III).
	Artillery park (16 new large canton- ment buildings, 150x 150x20 feet each)	Northern town border, northwest of the RR station, between the road and the RR line leading to PROSKUROV (see Annex 3, II).	Several thousand guns, including 122-mm guns, were parked in the open. About a hundred automatic guns mounted on trucks, 37-mm anti-air- craft guns, mortars. Numerous tractors and trucks.	
STANISLAV (48°55'N/ 24°40'E)	1. Food ration supply depot (fenced-in 5- story brick building with small windows; several cantonment buildings, total area about 650x650 feet, spur track).  2. Military depot. (one 4-story brick building about 330x80 feet)	Eastern town border, about 1,200 feet south of the RR station  About 2,620 feet west of the RR station on the southern side of the road leading to the RR station (Radianska).	Filled to capacity with first grade food stuffs. Distribution was not observed.  Storage unknown.
